Foreword by John Ebsworth, Chair

This booklet is part of The Promotion, Rehabilitation & Restoration of Riverina Bird Habitats Project that was initiated by the Riverina and South West Slopes Nature Based Tourism Group and with grant assistance by the NSW Environmental Trust. We welcome you to the Riverina and South West Slopes of Southern New South Wales and its rich diversity of bird life. We trust that you will enjoy the self drive tour routes which have been designed to encourage more bird watching activities in our region.

This booklet covers the part of New South Wales that can be defined with a line drawn from Toowoomba to Whiporie and west to Hillston. The mountains are east of the region with plains to the west that are dissected by significant river systems. There is a Ramsar site of international significance in the region. The varied landscapes, climates and habitats across the region hold diverse and interesting bird life with easy access to many good bird watching sites. The geographic area covers National Parks, Nature Reserves, State Forests, Travelling Stock Reserves and wetlands.

There are around 750 species of birds in Australia with 300 being recorded in this region making this area one of the best bird watching areas in Australia.

This booklet is divided into 13 Local Government Areas, with GPS references and Shire maps to help with the location of bird watching sites. Visitor Information Centres details are included so that you can access information on accommodation and other activities and services available in each Shire.

We ask that all visitors adhere to the conditions of entry to reserves and parks and the good behaviour expected from visitors to these sites.

Please visit the project website for additional information: www.riverinabirds.org.au

John Ebsworth

Tucked away in the south west of New South Wales is the gateway to the northern end of the Snowy Mountains and the Riverina, an area spectacular in natural beauty and diversity.

Four distinct seasons define the Tumut Region, each with its own charm – the richness of colour in Autumn, the playgrounds of the snowfields in Winter, the beauty of blossoms in Spring, and the spectacular tracts of water and aquatic recreational activities in Summer.

This vast area of untouched beauty promises an unforgettable experience with its unique landscapes, flora and proliferation of wildlife. Inland lakes, crystal streams, and gentle fertile pastures lead to vast pine forests, towering mountains, the awesome Snowy Mountains Scheme, and the many attractions of the northern end of the sensational Kosciusko National Park.

Each township within the region offers its own distinct identity. Adelong is steeped in history, Tumut famous for rich seasonal colour, Talbingo is known for its lakeside tranquility and Batlow for crisp mountain apples.

**Weeraboolera State Conservation Area**

**35 20 03 S - 146 13 53 E**

**Description:** The conservation area is a eucalypt forest having acacias, ferns and grasses as understorey.

**Access:** Travel toward Cooma along the Snowy Mountains Highway for approximately 4km, then turn right into Boonderoo Road. This will take you directly into the Weeraboolera State Conservation Area. Roads within the reserve are unsealed.

**Birds observed include:** Gang Gang Cockatoo, Australian King Parrot, honeyeaters and fairy-wrens.

---

**Rock Flat - Kosciuszko National Park**

**35 24 04 S - 148 25 92 E**

**Description:** Rock Flat is on the Goobarragandra River. Its vegetation is dominated by eucalypts, eg stringy barks, together with tea tree, and acacia.

**Access:** The Rock Flat is around 30km from Tumut along the Lacmalac-Goobarragandra Road, and travelling to Rock Flat you have the opportunity to visit Argalong Big Sandy TSR and Thomas Boyd Trackhead.

Rock Flat is a camping and day use area with visitor facilities.

**Birds observed include:** Crimson Rosella, Brown Thornbill, Pied Currawong, White-browed Scrubwren, robins and fairy-wrens.

Superb Fairy-wren
(Bernard Clark)

Weemala Lookout
35 31 35 S - 148 08 37 E

Weemala Lookout over looks Batlow township, and access is a sealed road approximately half a kilometre from Batlow town centre along the Tumbarumba Road.

Urban

Tumut - Riverglade Wetlands
35 17 39 S - 148 12 77 E

Description: The Riverglade Wetlands are bounded by the Tumut River and Gilmore Creek along its northern boundary, with lagoons and low areas within the site. Large remnant River Red Gums are present, and many thousands of native plants have been established as part of the area’s rehabilitation.

Access: The wetlands are on the north-eastern edge of Tumut near the junction of the Snowy Mountains Highway and the Gocup Road.

Birds observed include:
Little Egret, Australasian Grebe, Sacred Kingfisher, White-bellied Sea-Eagle and Whistling Kite.

Whistling Kite
(TEMP)

Batlow – Reedy Creek
35 31 01 S - 148 08 37 E

Description: Reedy Creek is a parkland area maintained by Tumut Shire Council.

Access: The park is on the Tumut Road just before you cross Reedy Creek to enter Batlow.

Crimson Rosella
(Dean Ingwersen)
Gundagai is the ideal location to base any bird watching trip. With the Murrumbidgee floodplain in the centre of town, you don’t have to go far for good birding. Over 60 species of birds have been identified in and around Gundagai’s urban floodplain, wetlands, and parks.

Over 20 species of parrot have been recorded in the region including some of Australia’s most beautiful, such as the Superb and Swift Parrots, as well as threatened woodland birds such as Diamond Firetails, Brown Treecreepers and Black-chinned Honeyeaters.

If watching beautiful Rainbow Bee-eaters returning to their riverbank nests, observing spectacular flocks of Galahs, Cockatoos and Corellas settling into their evening roost or viewing the charismatic Crested Shrike-Tit work away at the bark of an ancient River Red Gum sounds like the ideal way to spend an evening or two, Gundagai is the place for you.

Your travel partner is not quite the birding enthusiast? No worries. Gundagai is a town steeped in history and has a lot of activities to keep them entertained. Gundagai has enough interesting shops, art & antique dealers, restaurants & cafes, wineries and historic buildings to keep anyone busy for a day or a week.

Doctor’s Hill
35 09 86 S - 148 07 32 E

Description: White Box Woodland with understorey species including parrot-peas, wattles, everlasting daisies and native grasses. Being an endangered ecological vegetation community it is of high conservation value.

Access: Doctor’s Hill is a 20ha remnant managed by Gundagai Shire Council approximately 10km from Gundagai on the east side of Gocup Road. Access is on the crest of the hill via a gravel track with an area available for off road parking.

Birds observed include: Swift Parrot, Brown Treecreeper, Diamond Firetail, Crested Shrike-tit, Peregrine Falcon, an array of Honeyeaters such as Black-chinned, Brown-headed, Fuscous, White-napped and Yellow-faced.

South Gundagai Cemetery
35 05 76 S - 148 05 50 E

Description: White Box Woodland which has had in excess of 80 species of native plants recorded amongst which are, native grasses, flax lilies, and everlasting daisies.

Access: South Gundagai Cemetery is 5km from Gundagai along the Gocup Road, with a small area of White Box on its western boundary. Entry and parking uses an unsealed side road along the northern edge of the site. The site has walking tracks and interpretive signage to assist visitors.

Birds observed include: Crested Shrike-tit, Dusky and White-browed Woodswallows, Rainbow Bee-eater, Double-barred Finch, Olive-backed Oriole, and honeyeaters.
Nangus TSR
35 04 30 S - 147 56 83 E

Description: An open White and Yellow Box Woodland with grassy understorey.

Access: Nangus TSR is located on the southern side of the Nangus-Junee Road and lies just north of the Murrumbidgee River. There is no parking available on site, visitors will need to park vehicles at the side of the road and enter by walking.

Birds observed include: Superb Parrot, Cockatiel, Blue-faced Honeyeater, Eastern and Yellow Rosellas, Wedge-tailed and White-bellied Sea-Eagles.

Turners TSR
35 10 81 S - 148 00 92 E

Description: Box-Gum Woodland, consisting of White, Yellow, and Red Box, Blakely’s Red Gum, with a native grass understorey.

Access: Turners TSR is sited on the northern side of the Tumblong-Adelong Road, approximately 6km from Tumblong. Entry is via gate, please keep the gate closed.

Birds observed include: Little Lorikeet, Brown Treecreeper, Jacky Winter, Superb Parrot, Diamond Firetail and Southern Whiteface.

Bird Superb Parrot (Dean Ingwersen)

Crested Shrike-Tit (Dean Ingwersen)

Brown Treecreeper (Bernard Clark)
**Gundagai Common**

**Description:** Murrumbidgee floodplain with large remnant River Red Gums.

**Access:** The floodplain is bounded by the Murrumbidgee River and Morley’s Creek. It includes the golf course and town commons. Morley’s Creek flows just south of the main Gundagai shopping centre, having easy walkways and parking areas.

**Birds observed include:** Dollarbird, Australian Hobby, Rainbow Bee-eater, Azure Kingfisher, Crimson and Yellow Rosellas, Australasian Darter, fairy-wrens and cormorants.

**Billabong Creek**

34 58 85 S - 147 50 15 E

The creek is located on the Junee Road at the Gundagai-Junee Shire boundary, and is a River Red Gum community. Superb Parrots are often seen here.

**Muttama Cemetery**

34 48 97 S - 148 07 18 E

A small Yellow Box Woodland of 2ha, Muttama Cemetery is 1km south of Muttama village on the Coolac to Cootamundra Road. Eastern Rosella, Superb Parrot and woodswallows.
Cootamundra is the gateway to the Riverina, on the Olympic Highway, less than 2 hours drive from Canberra.

Surrounded by undulating landscapes, Cootamundra is teaming with bird life amongst this rich farming area. The township has something to offer everyone, with the birthplace of Sir Donald Bradman, the Cricket Captains Walk, the Art and Cultural Centre & Heritage Centre as all must sees.

The shopping centre provides a number of specialty shops along with coffee shops and beautiful gardens. Cootamundra, the perfect location to base yourself for day trips into the Riverina.

**Pioneer Park**

34 39 17 S  -  148 00 56 E

**Description:** Open woodland having Yellow Box on the lower slopes, understorey of acacias and native grasses.

**Access:** Take the road to Junee turn south into Back Brawlin Road and over the railway crossing. Pioneer Parks entrance is approximately 100m on the right.

The road into the Park is unsealed, and the car parking area and walking trail trackhead is a further 1km. The walking trail is 1.2km in length.

**Birds observed include:** White-throated Treecreeper, Common Bronzewing, Restless Flycatcher, robins and butcherbirds.

---

**Jindalee State Forest**

34 29 93 S  -  148 02 93 E

**Description:** Jindalee State Forest is a tall open woodland dominated by Mugga Ironbark, with some understorey shrubs and grasses.

**Access:** Travel along Berthong Road until 200m before the intersection with the Burley Griffin Way. Another entrance is 1km to the west along Burley Griffin Way.

**Birds observed include:** Speckled Warbler, White-throated and Brown Treecreepers, Flame Robin, Yellow-rumped Thornbill, parrots and honeyeaters.

---

*Hooded Robin (Dean Ingwersen)*

*White-throated Treecreeper (Bernard Clark)*

*Speckled Warbler (Dean Ingwersen)*

*Flame Robin (Bernard Clark)*
**Bland Creek TSR**

34 26 16 S - 147 52 15 E

**Description:** Open box woodland dominated by Yellow and Grey Box, and River Red Gums along Bland Creek, with acacias and grassy understorey.

**Access:** At Stockinbingal, turn north from the Burley Griffin Way into Grogan Road toward Milvale, the reserve is approximately a further 7km.

**Birds observed include:** Yellow-rumped Thornbill, Varied Sittella, Nankeen Kestrel, Eastern Rosella, honeyeaters and babblers.

---

**Other sites of interest**

**The Boundary TSR ‘Stock Hill’**

34 33 34 S - 147 58 17 E

**Description:** Open woodland dominated by Tumbledown Gum, with understorey as cassinia, everlasting daisies and native grasses.

**Access:** The Boundary TSR is 10km from Cootamundra along the Temora Road.

**Birds observed include:** White-winged Chough, Grey Fantail, Little Friarbird, parrots and birds of prey.

---

**Migurra Reserve**

34 43 18 S - 147 54 27 E

**Description:** Migurra Reserve is a small Box-Ironbark Woodland with an understorey consisting of acacias, lilies, everlasting daisies, and native grasses.

**Access:** The reserve is approximately 15km from Cootamundra along the Olympic Way toward Junee. There is a short looped walking trail through the reserve.

**Birds observed include:** Jacky Winter, Diamond Firetail, Double-barred Finch, Yellow-faced and Yellow-tufted Honeyeaters, robins and treecreepers.
Gunolibindyal TSR
34 28 51 S - 147 47 46 E

Description: Grassy Box Woodland dominated by Yellow and White Box, with some acacias.

Access: Travelling west from Stockinbingal on the Burley Griffin Way, at approximately 9km turn north into Greens Lane and over the railway crossing for 300m and the reserve is on the east side of the road.

Birds observed include: Red-rumped Parrot, Black-shouldered Kite, honeyeaters, thornbills and treecreepers.

Pevency TSR
34 31 31 S - 147 54 71 E

Description: A small open Grassy Box Woodland dominated by Yellow and Grey Box.

Access: Pevency TSR is approximately 29km from Cootamundra and 5km from Stockinbingal on the Cootamundra to Temora Road.

Birds observed include: Grey-crowned Babbler, Eastern Rosella, thornbills and woodswallows.

Urban
Captains Walk
34 38 22 S - 148 01 22 E

Access: Captains Walk is located in Jubilee Park, take Wallendooon Street across Muttama Creek Bridge then left into Olney Street where a parking bay is available.

Birds observed include: Superb Parrot, Red-rumped Parrot, Grey Butcherbird, Red Wattlebird and Blue-faced Honeyeater.
This pretty railway town is a feast for the eyes with its awnings, verandahs, wide streets and eccentric old-style architecture featuring stuccoed facades and decorative roof parapets.

The township developed on either side of the Sydney–Melbourne railway line, which reached the town in 1878.

During the 1880s, the line’s rail repair premises were moved to Junee from Wagga Wagga, increasing local employment opportunities significantly.

In recent times, Junee has become the largest producer of canola in NSW. It is also a centre for wheat, barley and oats.

A must to do in Junee, is a visit to Green Grove Organic, a licorice and chocolate factory, where they use organic Belgian chocolate, with its smooth and full flavour being actually good for your health.

The Monte Cristo was built in 1884 and is the finest colonial mansion in the Riverina. It has been faithfully restored and furnished in the high Victorian era circa 1840.

**Wallacetown TSR/RRA**
34 57 59 S - 147 26 90 E

**Description:** Yellow Box Woodland and native grasses, with River Red Gums along Houlaghans Creek which passes through the site.

**Access:** Wallacetown TSR is along the Olympic, approximately 20km south of Junee, and is also a roadside rest area with modern visitor facilities.

**Birds observed include:** Peregrine Falcon, Yellow and Eastern Rosellas, honeyeaters and waterfowl.

**Billabong Creek**
34 58 85 S - 147 50 15 E

**Description:** Small roadside area of Yellow Box, and River Red Gums along the creek.

**Access:** The Billabong Creek is located on the Gundagai Road at the Junee-Gundagai Shire boundary.

**Birds observed include:** Sacred Kingfisher, Superb Parrot, Peaceful Dove, Variegated Fairy-wren and Dollarbird.
**Bethungra Dam**

34 45 89 S - 147 54 44 E

**Description:** The water storage is a large open area of water with little remnant vegetation around or along its shore line, providing open habitat for waterbirds.

**Access:** From Bethungra travel the Olympic Way towards Cootamundra, approximately 1km from Bethungra, take the Bethungra Waterworks Road to the dam. It may well be worth a stop along Bethungra Waterworks Road.

**Birds observed include:** Black Swan, Red-kneed Dotterel, Australasian Shoveler, Hardhead Duck, Australasian Grebe and Black-winged Stilt.

Centred upon the vibrant rural service town of Temora, the Shire of Temora offers the opportunity to explore the zone of subtle geographical change which distinguishes the South West Slopes of New South Wales from the Riverina.

A low range of hills bisects the shire, dividing the catchment of the Bland Creek system from that of the drier, Mirrool Creek.

Native tree species ranging from White and Yellow Box, through to Grey Box, Pine and Kurrajong to Ironbark, map the shire’s soil types and drainage patterns.

Well over a century of dry-land mixed farming enterprise has shaped the landscape, and this diverse industry continues to underpin a strong local economy.

The Shire community offers a warm welcome to the visitor, the town of Temora and its associated villages of Ariah Park and Springdale, providing an attractive base from which to study the birdlife of an environment in which open woodlands intersperse fields and grassland.

**Ingulba Nature Reserve**

34 26 22 S - 147 26 41 E

**Description:** Ingulba has two distinct vegetation communities, tall open woodland with Mugga Ironbark and Grey Box being dominant, and also supporting White Cypress Pine on its lower slopes. Low open woodland with dry heath is found on ridge tops and exposed open slopes.

**Access:** Ingulba Nature Reserve is 10km west of Temora on the Burley Griffin Way.

**Birds observed include:** Grey-crowned Babbler, Diamond Firetail, Painted and Black-chinned Honeyeaters, Hooded Robin, and Superb Parrot.

---

**Big Bush Nature Reserve**

34 21 21 S - 147 13 38 E

**Description:** Like Ingulba, Big Bush is Box-Ironbark Woodland. The nature reserve also contains Green Mallee, and Cootamundra Wattle.

**Access:** Big Bush Nature Reserve is best accessed using Cedar Lane, which is 14km north of Temora along the Barmedman Road.

**Birds observed include:** Diamond Firetail, Glossy Black Cockatoo, Turquoise Parrot, Gilbert’s and Rufous Whistler and Yellow-rumped Thornbill.
Combaning State Forest
34 33 06 S - 147 43 04 E

**Description:** Box-Ironbark Forest, dominated by Mugga Ironbark and Grey Box with White Cypress Pine.

**Access:** Combaning State Forest is approximately 20km south-east of Temora on the Old Cootamundra Road.

**Birds observed include:** Brown Treecreeper, Swift Parrot, Rufous Whistler, Peaceful Dove, Grey Fantail, Varied Sittella and Grey Crowned Babbler.

Swift Parrot (Dean Ingwersen)

Bagdad TSR
34 31 07 S - 147 30 01 E

**Description:** Small Yellow Box Woodland remnant. The site also contains a ground tank, which normally contains water and is a good quiet place to observe birds.

**Access:** Bagdad TSR is 10kms south of Temora along the Wagga Wagga Road, and is accessed along an unsealed lane along the northern side of the site.

**Birds observed include:** Superb Parrots can be seen here quite often throughout most of the year. Other birds include Eastern Rosella, Pied Butcherbird, White-winged Chough, Australasian Grebe, White-browed Woodswallow and Rainbow Bee-eater.

Tucked in between the Newell and Sturt Highways, there is an idyllic place that has managed to retain its rural Aussie character.

A place proudly described as the ‘Heart of Rural Heritage’ Coolamon and the Shire’s smaller towns of Ardlethan, Beckom, Ganmain, Marrar and Matong exude history, character and charm.

Take a step back to a more peaceful time and place - to fresh air and a slower pace. The best in country hospitality is available when you visit the cafes, antique and gift stores, museums and craft outlets that are sprinkled throughout the Shire. Beautifully presented parks provide ideal picnic or rest stops and our caravan parks are just a stone’s throw from quality recreational clubs and shopping.

Join in the many bird-watchers who seek out the 220+ species of birds found in our region and enjoy the varied sites and habitats on offer.

The simple things like finding a car park with ease and smiling faces provide the icing on the cake to this authentic, unpretentious rural experience.

Superb Parrot (Dean Ingwersen)
Carrathool Shire consists of the town of Hillston, and the surrounding villages of Goolgowi, Merriwagga, Rankin Springs and Carrathool. From the wide open plains of Willandra National Park to the meandering banks of the Murrumbidgee and Lachlan Rivers, the Carrathool Shire offers an abundance of diversity for visitors to our region.

Caravaners & campers are often attracted to Pinkers Beach and the Carrathool Bridge Reserve, a perfect spot under the tall Red River Gums of the Murrumbidgee River. Visitors can follow the heritage trail around the village of Goolgowi and make use of the BBQ, toilets and playground facilities in Pioneer Park.

Don’t forget to discover the story behind the Black Stump at Merriwagga and visit the memorial – the Hotel is also full of characters and stories! Then stop in Hillston, a thriving rural town, explore the mainstreet and country shops and have lunch in the park on the banks of the Lachlan River.

For nature lovers, the Carrathool Shire has an abundance of native flora and fauna - you are bound to see kangaroos, emus, wombats and even the odd echidna. If you’re an avid birdwatcher and prefer exploring mudflats, reedy swamps or bushland, our Shire boasts an extensive range of unique Australian birds.

The Willandra National Park has recorded over 170 species of birds on the plains, wetlands and woodlands. Birds in our region include the Glossy Black Cockatoo, White-browed Treecreeper, Painted Honeyeater, ground-dwelling Malleefowl, and many more. Rankin Springs is also a birdwatcher’s paradise and has two very popular bird hides.

Stackpoole State Forest
33 50 32 S - 145 49 34 E

**Description:** Stackpoole State Forest in large part is a Mallee Woodland, with areas of White Cypress Pine, Casuarina and including some Inland Red Box *Eucalyptus intertexta*.

**Access:** Stackpoole State Forest is approximately 20km north of Goolgowi. The road is sealed from Goolgowi to the forest entrance, within the forest there are graded fire trails.

**Birds observed include:** White-browed Babbler, Major Mitchell’s Cockatoo, Apostlebird, robins, thornbills and woodswallows.

Binya State Forest
34 15 03 S - 146 14 73 E

**Description:** Binya State Forest is a Box-Pine Woodland with White Cypress Pine and Bimble Box being most dominant. The forest contains areas of other vegetation such as Buloke and Yarran Wattle.

**Access:** Forestry Hut is on the southern side of the Burley Griffin Way about 200m east of the Whitton Stock Route intersection. Enter at Pine Drive. The graded fire trails may be impassable in wet conditions.

**Birds observed include:** Hooded Robin, Crimson Chat, Mulga Parrot, Painted, Black and Pied Honeyeaters, White-browed Treecreeper, woodswallows and thornbills.
Binya State Forest
‘Wattle Dam’
34 12 33 S - 146 16 12 E

**Access:** Wattle Dam is on the northern side of the Burley Griffin Way. Travel north via the Whitton Stock Route and on reaching the Spring Hill Picnic Area directional sign follow the road to the east for about 2.5km. Enter at Wattle Drive entrance which is on the right side of the road.

**Birds observed include:** Turquoise Parrot, Hooded Robin, Speckled Warbler, Brown Treecreeper, Rufous Whistler, honeyeaters, babblers and Rainbow Bee-eater.

---

Cocoparra National Park
‘Mount Brogden’
34 12 94 S - 146 16 89 E

**Access:** Travel north on the Whitton Stock Route until the Mount Brogden Walking Track directional sign, then follow the graded trail through Binya State Forest until the national park. The Mount Brogden visitor parking area is approximately 2km further on.

**Birds observed include:** Mulga Parrot, Inland Thornbill, White-browed Treecreeper, Black-eared Cuckoo, Glossy Black Cockatoo, Red-capped and Eastern Yellow Robins.

---

Cocoparra National Park
‘Store Creek’
34 08 75 S - 146 12 63 E

**Access:** Store Creek is a day area with visitor facilities and is accessed from the Whitton Stock Route.

**Birds observed include:** Speckled Warbler, Mulga Parrot, Black-eared Cuckoo and Eastern Yellow Robins.

---

Cocoparra National Park
Description: Cocoparra National Park is part of a range of rocky hills at the north-western edge of the South West Slopes bioregion. Vegetation includes Dwyer’s Red Gum on the upper portions, Mugga Ironbark and some Blakely’s Red Gum, with Bimble Box and White Cypress Pine in the lower areas of the park.
Cocoparra National Park
‘Woolshed Flat’
34 04 86 S - 146 13 28 E

**Access:** Woolshed Flat has camping and visitor facilities available. These are all accessed along the Whitton Stock Route which travels along the western side of both Cocoparra National Park and Binya State Forest.

**Birds observed include:** Speckled Warbler, Major Mitchell’s Cockatoo, Mulga Parrot, Diamond Firetail and Red-capped Robin.

---

Jimberoo State Forest
33 47 15 S - 146 18 80 E

**Description:** The state forest is a box woodland dominated by Bimble Box with Grey Box and Ironbarks present. Acacias, sennas, lilies, and native grasses as understorey.

**Access:** Jimberoo State Forest is approximately 7km from Rankin Springs on the Lake Cargelligo Road.

**Birds observed include:** Common Bronzewing, Grey Butcherbird, Blue Bonnet, Budgerigar and honeyeaters.

---

Pulletop Nature Reserve
33 57 60 S - 146 05 11 E

**Description:** Pulletop Nature Reserve is a small remnant Mallee Woodland.

**Access:** The nature reserve is approximately 40km north of Griffith along the Rankin Springs Road. The road leading off to the west from Rankin Springs Road to the reserve is unsealed and may be impassable in wet conditions.

**Birds observed include:** Yellow-plumed Honeyeater, Mallee Ringneck and Blue Bonnet.

---

**Other sites of interest**
Famous for its designer, Walter Burley Griffin, the city boasts his famous circuits and wide, tree-lined streets, distinct from his design of Canberra, offering a contemporary yet country feel.

The city is blessed with a wonderful blend of cultures and people who are passionate about their food. Visitors and locals revel in the social atmosphere of superb fresco and fine dining.

You’ll find the locals love for cuisine is complimented by a love of wine. The region is the largest wine growing area in New South Wales, exporting around the world. Be sure to try some of the distinct sweet botrytis wines, spicy reds and fruity whites; there is something to suit every connoisseur.

In Griffith there are a range of other experiences to enjoy. Take time to explore Scenic Hill which provides panoramic views over the city and surrounding farmlands. It is also the location of Pioneer Park Museum, the Italian Museum, and the Hermit’s Caves of Valerio Ricetti.

There is a wide choice of accommodation available in the city and surrounds from hotels, caravan parks, self-contained apartments, motels through to farm stays and B & B’s. A city of celebration, Griffith hosts multicultural festivals, craft and antique shows, garden festivals, food and wine events. There’s something for the whole family to enjoy.

Lake Wyangan
34 13 86 S - 146 01 22 E

**Description:** The wetland is divided via a central causeway having southern and northern areas of open water. The north lake is open to recreational activities such as boating, while this is not permitted on the south lake.

**Access:** Lake Wyangan has excellent access and is located approximately 5km north of the city centre.

**Birds observed include:** Depending on water levels, birds to be seen on the north lake, either near the causeway or along the far north end include Great Crested Grebe, Sharp-tailed Sandpiper, Red-necked Stint, Red-necked Avocet other waders and terns. The south lake has deeper water and is where Australasian Darter, White-bellied Sea-Eagle, Pied Cormorant, Glossy Ibis and other cormorants may be seen.

Australasian and Little Bitterns may at times be seen or heard amongst the reeds of both areas.

---

Campbell’s Swamp
34 13 78 S - 146 02 13 E

**Description:** A small shallow wetland with areas of reeds and open water. The presence of water in the wetland is dependent on seasonal conditions.

**Access:** With a car parking area approximately 1km past the turn to Lake Wyangan along the Nericon Road.

The wetland has very good visitor facilities with parking pathways, boardwalk, and birdhide. These facilities have been constructed and maintained by the Murrumbidgee Field Naturalists.

**Birds observed include:** Australasian and Little Bitterns, Freckled Duck, Australian Spotted and Spotless crakes. In some years 1000’s of Glossy Ibis come to roost in the swamp of an evening.
**Nericon Swamp** 34 13 16 S - 146 02 18 E

*Description:* A small shallow and saline open wetland. The presence of water in the wetland is dependent on seasonal conditions.

*Access:* Nericon Swamp has a car parking area approximately 2km north of the turn to Lake Wyangan along east side the Nericon Road.

The wetland has very good visitor facilities with parking, pathways, and birdhide. These facilities have been constructed and maintained by the Murrumbidgee Field Naturalists.

*Birds observed include:* Black-winged Stilt, Red-necked Avocet, Red-necked Stint, Marsh and Sharp-tailed Sandpipers.

**Binya SF Wattle Dam**

34 12 33 S - 146 16 12 E

*Description:* Binya State Forest is a Box-Pine Woodland with White Cypress Pine and Bimble Box being most dominant. The forest contains areas of other vegetation such as Buloke and Yarran Woodland, and Mallee.

*Access:* Binya State Forest is at the southern end of Cocoparra National Park. The Burley Griffin Way divides the forest. Both the southern and northern portions of the forest are accessible using graded fire trails which may be impassable in wet conditions.

*Birds observed include:* Turquoise Parrot, Hooded Robin, Brown and White-browed Treecreepers, Painted, Black and Pied Honeyeaters.

**Binya SF Southern**

34 15 03 S - 146 14 73 E

**Binya State Forest and Cocoparra National Park** are near Yenda along the north-eastern boundary of Griffith City Council in Carrathool Shire.

**Murrumbidgee Valley Regional Park – Willbriggee**

34 32 42 S - 145 57 30 E

*Description:* River Red Gum Forest having the Murrumbidgee River along its southern boundary.

*Access:* Murrumbidgee Valley Regional Park, approximately 5 km along the River Road to Carrathool.

*Birds observed include:* Yellow Rosella, Sacred Kingfisher, Superb Parrot, Dollarbird and Brown Treecreeper.

Leeton Shire

The Walter Burley Griffin designed town with its well appointed public parks, tree lined streets and an outstanding main streetscape of Art Deco architecture, make it a very attractive and inviting town.

Experience the Leeton SunRice Centre, where you will be treated to a presentation on Australia’s Rice industry, which includes viewing a video and rice tasting.

Beautifully maintained buildings that reflect the Art Deco era are a show piece of Leeton, which include the Roxy Community Theatre, Historic Hydro, main water towers and the Government Offices in Chelmsford place.

A delightful and rewarding spot for birdwatchers on the northern outskirts of town, Fivebough Swamp is a sanctuary and important feeding ground for migratory waterbirds.

The nearby Murrumbidgee River and recently proclaimed Murrumbidgee Valley National Park, have wonderful forest drives, sandy beaches and excellent fishing spots. Gogeldrie Weir is a fantastic recreational area on the Murrumbidgee River worthy of inspection and the historic mansion of irrigation pioneer, Sir Samuel McCaughey is a ‘must see’ attraction.

The Courthouse and Gaol Museum at Whitton contains a comprehensive collection of early farming and irrigation equipment. The Yanco Powerhouse Museum was the original power generating station for the irrigation scheme.

Leeton Shire Council
**Fivebough Wetlands**

**Description:** Fivebough Wetlands are Wetlands of International Importance (Ramsar) and are recognised for their diversity and abundance of waterbirds. The wetlands are 400ha in area, and contain a mosaic of varying waterbird habitats, which include open shallow areas used by migratory shorebirds, with more densely vegetated sites preferred by cryptic species as bitterns, crakes, and rails.

One hundred and eighty species of birds have been recorded at Fivebough of which eighty four are waterbirds.

**Fivebough Wetlands Petersham Rd Entrance**

34 32 14 S  -  146 25 22 E

**Access:** Fivebough Wetlands are located just north-east of Leeton. Travel along Brobenah Road for approximately 1km then east into Petersham Road then another 1km to the wetland’s carpark. From the carpark you have access to the western portion of the wetland, which has walking trails, birdhides, and viewing mounds throughout.

**Birds observed include:** Glossy Ibis, Swamp Harrier, Australasian Bittern, Little Bittern, Spotted and Spotless Crakes, Australian Painted Snipe, Little Grassbird, Sharp-tailed Sandpiper and Freckled Duck.

**Fivebough Wetlands Hooey Road Lookout**

34 31 41 S  -  146 26 35 E

**Access:** Hooey Road Lookout is located on the eastern side of the wetland, and provides visitors with an overview of the wetland.

Travel along Fivebough Road for approximately 4km until Hooey Road, then to its carpark. There is no access to the wetland from Hooey Road.

**Birds observed include:** Brolga, Whiskered Tern, Black-winged Stilt, ducks, ibis, plovers and dotterels.
Murrumbidgee Valley National Park

Description: The River Red Gum Forests of the Murrumbidgee Valley National Park in Leeton Shire traverse approximately 80km of river frontage mainly on the north side of the river.

The forests are dominated by River Red Gum, and contain areas of White Cypress Pine, Yellow Box and Black Box Woodlands. Trails within the National Park may be impassable in wet conditions.

Murrumbidgee Valley National Park - MIA 1. ‘Graham’s Grave’ Entrance
34 43 26 S - 146 27 74 E

Access: The Murrumbidgee Valley National Park - MIA 1. “Graham’s Grave” entrance is approximately 18km south-east of Yanco along the road to Narrandera (Irrigation Way). On entering the National Park it is a further 2km to Graham’s Grave beach.

Birds observed include: Little Eagle, Crested Shrike-tit, Grey-crowned Babbler, Superb Parrot, honeyeaters and cormorants.

Murrumbidgee Valley National Park - MIA 1. ‘Brick Kiln’ Entrance
34 38 88 S - 146 23 90 E

Access: The Murrumbidgee Valley National Park-MIA 1. ‘Brick Kiln’ entrance is approximately 6km south of Yanco along the road to Narrandera (Irrigation Way).

The main drive allows access through the National Park from ‘Brick Kiln’ to ‘Graham’s Grave’ entrances, a distance of approximately 16km.

Birds observed include: Little and Long-billed Corella, Western Gerygone, Dollarbird, Yellow Rosella, Apostlebird, Grey Shrike-thrush and pardalotes.
Murrumbidgee Valley National Park - Cuba
34 34 92 S - 146 06 50 E

Access: Murrumbidgee Valley National Park - Cuba is 15km south of Whitton along the road to Darlington Point.

Birds observed include: Superb Parrot, Yellow and Eastern Rosellas, Red-capped Robin, Brown Treecreeper, fairy-wrens and waterbirds around the billabongs and river.

Whitton Punt TSR
34 37 51 S - 146 11 75 E

Description: River Red Gum Forest with Yellow and Black Box Woodland away from the Murrumbidgee River and lagoons.

Access: Continue to follow Uroley Road (unsealed) after the Innisvale Lane intersection for 13km, turn north and cross the bridge over the Coleambally Canal, the reserve 3km further on.

Birds observed include: Superb Parrot, Red-rumped Parrot, Whistling Kite, Varied Sittella, Grey-crowned Babbler, Southern Boobook, Sacred Kingfisher and honeyeaters.
**Other sites of interest**

**Murrumbidgee Valley National Park - Billenbah**
34 39 16 S - 146 21 04 E

*Description:* Small Box-Pine Woodland dominated by White Cypress Pine and Black Box with an understorey of native grasses.

*Access:* After leaving Yanco along the road to Narrandera follow Uroley Road for approximately 10km then Innisvale Lane for 1km.

*Birds observed include:* Eastern Yellow and Hooded Robin, Rainbow Bee-eater, Blue Bonnet, Western Gerygone and butcherbirds.

**Yanco Weir TSR**
34 41 94 S - 146 24 13 E

*Description:* Yellow Box Woodland having River Red Gums along the creeks within the reserve, grassy understorey.

*Access:* Travelling from Yanco on the Uroley Road about 500m after crossing the Euroley Bridge over the Murrumbidgee River, turn south onto the Yanco Weir Road, 10km, the reserve and Yanco Weir.

*Birds observed include:* Superb Parrots, rosellas, pardalotes, honeyeaters and woodswallows.

**Wumbalgal TSR**
34 22 09 S - 146 12 73 E

*Description:* Grassy Box Woodland dominated by Bimble Box, with small areas of White Cypress Pine.

*Access:* The reserve is on the boundary of Leeton and Griffith Shires, along the Leeton to Griffith Road (Irrigation Way).

*Birds observed include:* Blue Bonnet, Grey-crowned Babbler, Crimson Chat, thornbills and finches.

**Murrumbidgee Valley National Park - MIA 2**
34 38 14 S - 146 22 52 E

*Access:* Follow Uroley Road. The trail entering the forest is 200m on the west side of the road before Euroley Bridge over the Murrumbidgee River.

*Birds observed include:* Olive-backed Oriole, Dollarbird, Yellow Rosella, Sulphur-crested Cockatoo and corellas.

**Yanco Weir TSR**
34 41 94 S - 146 24 13 E

*Description:* Yellow Box Woodland having River Red Gums along the creeks within the reserve, grassy understorey.

*Access:* Travelling from Yanco on the Uroley Road about 500m after crossing the Euroley Bridge over the Murrumbidgee River, turn south onto the Yanco Weir Road, 10km, the reserve and Yanco Weir.

*Birds observed include:* Superb Parrots, rosellas, pardalotes, honeyeaters and woodswallows.

**Yanco Common**
34 36 52 S - 146 24 27 E

*Description:* A small patch of Boree (*Acacia pendula*) Woodland.

*Access:* After entering Uroley Road travelling from Yanco the entry tack is 200m on the right.

*Birds observed include:* Superb Parrot, Black Honeyeater, Spotted and Striated Pardalotes, Australian Hobby and thornbills.
If you enjoy the great outdoors, you’ll enjoy your time at Narrandera. The town has some beautiful heritage attributes: its street trees, its 19th century buildings and its place on the ancient Murrumbidgee River.

The river borders Narrandera’s south side, and along with Bundidgerry Creek, Lake Talbot and the Red Gum corridor through which it flows, creates some great opportunities to see native flora and fauna.

Right in town and a stone throw north of the River (near the river bridge) you’ll find the Narrandera Wetland. This is a gem. The wetland was developed to manage the storm water run-off from the town and create a haven for bird life. Volunteers and the local Council partnered to create the wetland bed and plant it out. An historic army bridge is a feature.

Narrandera has a good range of options for an overnight stay, taking in motel, bed and breakfast and hotel style accommodation as well as several caravan parks with cabins. There is also some great shopping including antiques and coffee shops.

Lockhart was named by the Commissioner of Crown Lands in 1896 and this picture postcard town is listed by the National Trust. It’s old-world charm lies in its buildings – the verandahs, ornate lacework and carefully restored facades.

In the 1850s, Lockhart was known as Green’s Gunyah, after a certain Mr Green, who set up a roadside shack that became a watering hole for travellers on their way to Narrandera.

Today’s New Gunyah Hotel stands on the site of this early ‘hotel’, and the ruins of the original stables can be seen at the rear of the site.

While in Lockhart it is a must to visit the Lockhart Museum, with its sizable collection of vintage machinery and Noske’s Chinese Crossing, a dry-stone carriageway across Yerong Creek that was built by Chinese migrants using rocks cut from a nearby quarry. Join celebrities, world acclaimed sportsmen and women, artists, musicians and writers, in a celebration of cultures, past and present, in the annual “Spirit of the Land” festival.

Visit the Doris Golder Wool Art display, portraits that have been created using washed wool from white and coloured sheep, no dyes were used and the colours are all from natural wool.

Located west of Tootool and north of The Rock to Lockhart Road, a small River Red Gum remnant area.
Apostlebird, Grey Fantail, friarbirds and pardalotes amongst birds observed here.

Urban

Pleasant Hills
Grassy Box Woodlands (TEMP)
Description: This aptly named village is located 37km from Lockhart, is surrounded by rolling hills making it particularly picturesque.
The Recreation Ground and tennis courts and its unusual entrance, was built by the locals as a reminder of how bags were stacked in the old days. The hessian bags were treated then filled with cement, on them are the names of local properties. The folk at Pleasant Hills are a dedicated community who continuously work towards the betterment of their village. The Esplanade in the middle of the village consists of natural vegetation including native flowers.
There is a locally owned shop/post office with groceries and small goods available.
Access: The village of Pleasant Hills is on the Henty to Lockhart Road.
Greater Hume offers a “simply greater” experience for visitors to our Shire:

- Our history at museums in Culcairn, Henty, Holbrook and Jindera.
- The hospitality of our communities and locals alike throughout the Shire.
- The accommodation options from country pubs to quality motels or caravan parks to bed and breakfast and farm host providers in country towns or farms throughout the Shire.
- Our icons like the HMAS Otway Submarine in Holbrook, Morgan’s Lookout, Headlie Taylor Header in Henty, Wymah’s Ferry, Walla Walla’s German Wagon, the Henty Man on the Olympic Way, Brocklesby’s Avro Anson landing site as well as the Cobb and Co stopovers.
- Experiences at Paintball Albury Wodonga, Holbrook Miniature Railway, Rosewood Essential Oils, various wineries and Henty Machinery Field Days.

Follow ALL rules, laws & regulations governing public areas

• Please obey and respect signage.
• Camping is permitted on Crown Land and National Parks, permission is required with Travelling Stock Reserves, and it is prohibited in Nature Reserves.
• All road rules apply on public lands, vehicles must be registered and drivers licensed.
• Drivers need to remain on formed roads and fire trials.
• Do not drive vehicles across country causing damage to vegetation and soils.
• No dumping of rubbish. Many sites have no facilities please take your rubbish with you.
• Do not disturb or remove wood from a site.
• Do not light fires during total fire bans. Fires are prohibited in Nature Reserves.
• No shooting or hunting.
• Use of call playback within National Parks, Nature Reserves (and other areas) requires the user to hold a current scientific licence and approval from the local area office.
• Do not enter restricted areas unless authorised.
• Respect and maintain the values and rights of traditional owners when visiting sites.

The welfare of the birds and habitat disturbance

• Do not cause stress to birds or expose them to danger during observation, photography or recording.
• Do not approach too closely or interfere with their natural behaviour.
• When walking, watch for and avoid ground-nesting birds and roosting birds.
• Do not harass birds by repeated disturbance.
• Were possible walk on formed roads, tracks and paths to minimise disturbance to bird habitat and to the birds.
